

Runway 3

Three-light linear pendant

Canopy face / 1 in depth / dimensions in inches

HARDWARE REFERENCE

Schematic / not for fabrication

Canopy length	Port spacing
36 in	16 in / center to center
Canopy width	End margin
6 in	2 in
Canopy depth	Light positions
1 in	3 / downward
Port centers from left edge	Connection
2 / 18 / 34 in	Hardwired

Finishes	Supplied bulb / one per light
Brass / Nickel / Black	12 W LED / T30 / E26 / 11.8 x 1.2 in

Cord and electrical

6 ft of cord per pendant included. Each pendant cord adjusts independently. Hardware maximum: 60 W per bulb. Keep sockets exposed and maintain at least 1 in between printed stacks.

The canopy drawing defines port positions. Installed drop depends on cord adjustment; the completed design adds the selected printed shapes and bulbs.
